We Set The Standard

Pukka's 100% Custom Headwear Program was born out of an understanding that independent shops and small brands deserve access to the same custom manufacturing quality and design capabilities traditionally available to only large brands. Our unique supply chain solution includes a production process where the components of every hat are assembled and fully personalized as one process on one production line. Further distinction includes free artwork set-up, free digitizing, unparalleled embroidery quality and graphic capabilities and minimums as-low-as 48 per style (12 per color and fabric) combinations.

We've been setting the standard on highest customization at the lowest minimums for over a decade.

Setting the standard is our standard.
